### Packing and handling

- Transport on horizontal or vertical pallets
- Optimum element dimensions for installation

### On-site preparations by client

- Solid, waterproof and level substructure
- Sufficient power supply for heater power
- Final electrical connections to be done on-site

# NATIVA EXTRAS

**OUTSIDE PANELING**  
Outside paneling is available for the side and back walls.

**LIGHT**  
It is possible for you to change the light-mood in the sauna by adding an extra LED strip to the backrest's lower side.

**HEATER GUARD**  
Nativa's wooden heater guard beautifully matches the other interior materials.

**FLOOR**  
The floor is expressly designed to match the overall style. Its grids are solid, durable and come with rubber strips, which prevent the floor from being slippery and the wood from being in direct contact with humidity.

**BENCH**  
The bench design corresponds to the very nature of Nativa itself: solidity and safety. There are two different lengths available - 57 cm and 115 cm.
