Packing and handling

- Transport on horizontal or vertical pallets
- Optimum element dimensions for installation

On-site preparations by client

- Solid, waterproof and level substructure
- Sufficient power supply for heater power
- Final electrical connections to be done on-site

LUMINA EXTRAS

LIGHT EFFECT
It is possible to add an extra optical fiber between the frontboards of the upper bench

HEATER GUARD STONE
The luxurious dark grey stone board creates a unique atmosphere.

OUTSIDE PANELING
Outside paneling is available for the side and back walls.

LAMP
A special lamp has been designed for Lumina- it is almost invisible, like the door. There are two sizes available, with lengths of 50 and 80 cm.

TOWEL HOLDER
Optional practical towel holders are available, designed and sized like the lamps.

BENCH
Lumina's benches are available in three different lengths - 57, 83 and 108 cm, depending on the needs and wishes of the sauna owner

FLOOR
The floor is expressly designed to match the overall style. Its grids are solid and durable, and they come with rubber strips, which prevent the floor from becoming slippery and the wood from coming into direct contact with humidity.
