

Kaia

Compact.
Contemporary.
Timeless.

Kaia is a modern garden sauna cabin designed for those who value simplicity, comfort, and contemporary outdoor living.

Its clean geometry and architectural clarity create a calm, modern presence in any outdoor setting, from compact urban spaces to more open landscapes.

The Kaia S is designed for smaller spaces where an efficient footprint matters most. The larger Kaia model includes an integrated terrace, adding extra functionality and creating a natural transition between the sauna and the outdoors.

With its efficient layout, refined aesthetics, and timeless character, Kaia is made for everyday use, becoming a natural part of your wellness routine.

Key features

Compact & contemporary design

Modern lines, a refined cladding profile, and a clean architectural form make Kaia a natural fit for gardens, backyards, and holiday homes.

Window options

Choose between the signature round window and a square window option, balancing natural light, privacy, and architectural character.

Premium materials

Crafted from thermowood and finished with a durable metal roof, Kaia is built for strength, stability, and long-term outdoor use.

Year-round comfort

Designed for reliable performance in every season, Kaia offers comfort and durability in both warm and cold climates.

Efficient heating

Compact dimensions allow fast heat-up with low energy use.

Atmospheric lighting

Integrated lighting enhances the sauna's warm, inviting interior.
