

Kaia L in natural exterior finish

# Kaia

Compact.  
Contemporary.  
Timeless.

Kaia is a modern garden sauna cabin designed for those who value simplicity, comfort, and contemporary outdoor living.

Its clean geometry and architectural clarity create a calm, modern presence in any outdoor setting, from compact urban spaces to more open landscapes.

The Kaia S is designed for smaller spaces where an efficient footprint matters most. The larger Kaia model includes an integrated terrace, adding extra functionality and creating a natural transition between the sauna and the outdoors.

With its efficient layout, refined aesthetics, and timeless character, Kaia is made for everyday use, becoming a natural part of your wellness routine.

## Key features

### Compact & contemporary design

Modern lines, a small footprint, and a distinctive cladding profile make Kaia ideal for gardens, backyards, or holiday homes.

### Distinctive window options

Choose between a clean closed facade, a rectangular window, or Kaia's signature round window, allowing you to balance privacy, natural light, and architectural character.

### Premium materials

Crafted from thermowood and finished with a durable metal roof, Kaia is built for strength, stability, and long-term outdoor use.

### Ambient LED lighting

Integrated warm white lighting behind the backrests and on the terrace enhances the sauna's warm, inviting atmosphere both inside and out.

### Durable aluminium-framed door

The sauna door features a strong aluminium frame designed for stability, durability, and reliable everyday use in outdoor conditions.

### Efficient heating

Compact dimensions allow fast heat-up with low energy use.
