

AUROOM

**Barrel Saunas
Collection**

**Enter the world
of wellbeing**

Creating moments of wellbeing

We come from the deep forests and harsh climate of the North, the birthplace of the sauna, where it has been treasured as a ritual for achieving mental and physical balance for thousands of years. We are convinced that this ancient legacy works equally well today, creating the moments of wellbeing necessary for people to live a fulfilled life.

Making saunas is our passion

Auroom has been making saunas for more than 20 years. We have a lifelong passion for timber and produce clean, pure, modern designs that are perfected down to the last detail. Our saunas are tailored to meet every need and refined by our craftsmanship. Our whole team of experts is dedicated to creating the most harmonious sauna experience possible. All our saunas are handcrafted, integrating years of experience and cutting-edge technology. We tackle every sauna project individually in order to provide the best possible solution for our clients. That is why we are able to offer wellness solutions for even the most demanding requirements, be they special home sauna projects or entire sauna complexes for spa hotels.

Saunas that are made to last

Every piece of timber we use in our saunas, however small a part it will play, is carefully selected from the high-quality materials at our disposal. In this way, we ensure the longevity of our products and avoid problems arising in the course of their use. We build with a wide range of timbers - if you place a special order, your imagination is only the limit.

Taking responsibility

We use only timber that has been responsibly sourced. We obtain timber from our parent company Thermory - the world's leading producer of thermally modified timber and sauna materials. This allows us to make our products available all over the world and ensures that the quality of our raw materials is consistent even in larger orders. Our saunas meet all global environmental standards and are certified accordingly.

Barrel Saunas

Your cosy sanctuary at home

Step into the timeless tradition of barrel saunas, reimagined with modern design and refined craftsmanship.

Each sauna in the Auroom barrel collection is crafted from premium thermally modified pine – a material chosen for its durability, stability and beautiful natural character. This advanced wood treatment enhances resistance to moisture, weather and temperature changes, ensuring long-lasting performance in outdoor environments.

All models can be customised to suit your space and preferences – from exterior finishes and roofing to windows, heaters and lighting. Create a sauna experience that fits perfectly into your lifestyle.

Halo

Compact elegance

Experience the joy of simplicity with Halo's space-saving, minimalist design that perfectly complements any outdoor setting. With a design that exudes modern functionality, this sauna provides all you need for a serene and satisfying bathing experience with zero fuss.

Halo is designed for comfort and durability, featuring a round shape that optimises heat distribution and energy efficiency. Inside this barrel sauna you'll find a cosy environment that's ideal for unwinding, while the exterior enhances any outdoor space with its rustic charm. Halo offers a touch of luxury, with a choice between the compact Cosy and spacious Comfy models, as well as an optional changing room for added convenience.

Key features

Two sizes

Choose between the snug Halo Cosy or the more spacious Halo Comfy. Both offer the same elegant design in different diameters to suit your space and preference.

Flexible lengths

Halo comes in multiple length options, so whether you're working with a compact terrace or a generous garden, there's a Halo that fits perfectly.

Customizable back wall

Tailor your Halo sauna to your style and setting with a choice of half or full panoramic back windows that open up the view and invite in natural light. For a more intimate feel, you can opt for a juniper accent panel, adding texture, aroma, and a nod to traditional sauna heritage.

Tranquil Circular Design

Halo's distinctive round form blends beautifully with outdoor surroundings while promoting even heat distribution - for a sauna experience that feels as good as it looks.

Atmospheric lighting

Optional lighting packages include LED strips under benches and backrests, sauna room wall lights, and even outdoor spotlights – all designed to create a warm, calming glow.

Elegant glass details

Halo features 8 mm tempered glass doors and windows with a soft grey tint for a modern, refined look. For added functionality, an optional aluminum-framed lockable glass door is also available - combining security with sleek design.

Halo Cosy

Compact comfort for everyday sauna moments

Halo Cosy is designed for those who value simplicity, efficiency and a compact footprint. Its round barrel form promotes even heat circulation while creating an intimate sauna environment that heats up quickly and efficiently.

Ideal for smaller gardens, terraces or private retreats, Halo Cosy offers a balanced sauna experience without taking up unnecessary space. Despite its compact size, the interior provides comfortable seating and the natural warmth of thermally modified wood, creating a relaxing atmosphere for everyday sauna rituals.

Halo Cosy is the perfect choice for those seeking a practical and elegant outdoor sauna that delivers authentic heat and comfort in a space-saving design.

Dimensions

Halo Cosy 120

Auroom's most compact barrel sauna

Halo Cosy 120 is designed for spaces where every square metre counts. With a depth of just 1.2 metres, it is the most compact model in the Halo collection.

A clever L-shaped bench layout maximises the interior space, providing comfortable seating and enough length to stretch out during your sauna session. The result is a compact sauna that delivers surprising comfort and a fully authentic sauna experience.

Size options

Halo Cosy 120
2 person sauna
Sauna length: 153cm
Bench length: 121cm

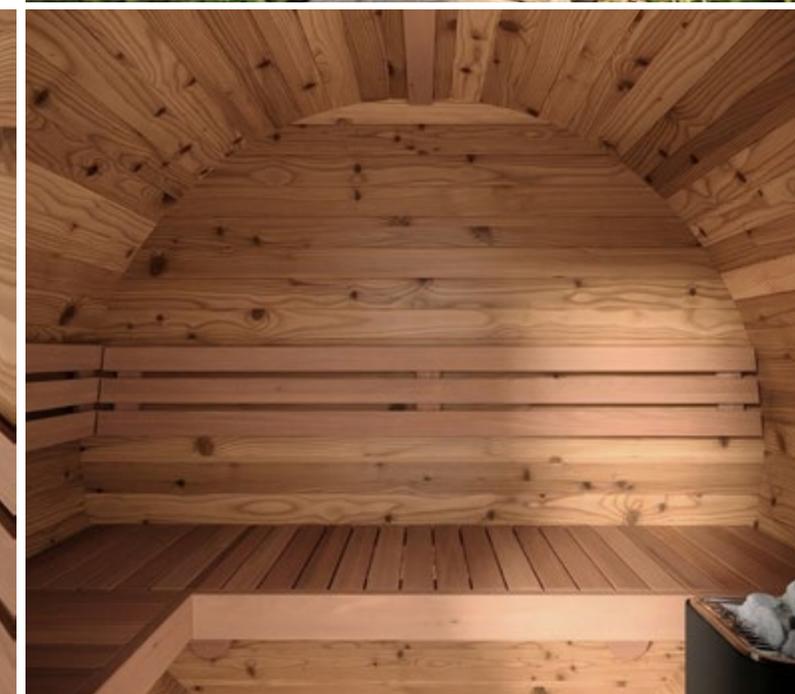

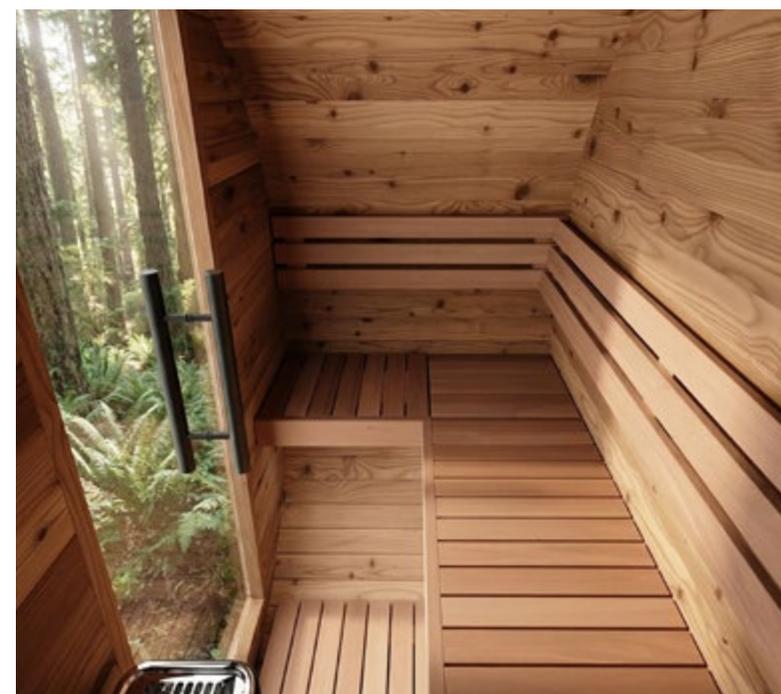

Halo Cosy 150
2 person sauna
Sauna length: 153cm
Bench length: 121cm

Halo Cosy 180
2 person sauna
Sauna length: 187cm
Bench length: 156 cm

Halo Cosy 225
4 person sauna
Sauna length: 227cm
Bench length: 196 cm

Halo Comfy

More space to relax, share and enjoy the sauna

Halo Comfy builds on the classic barrel sauna concept with increased interior space and enhanced seating comfort. The extended layout provides more room to stretch out and enjoy longer sauna sessions in a relaxed setting.

With generous bench lengths and a more spacious interior, Halo Comfy is ideal for shared sauna moments with family or friends. The round barrel shape ensures efficient heat distribution while the natural wood interior creates a warm and inviting environment.

For those who prefer a more open and comfortable sauna experience, Halo Comfy offers the perfect balance of traditional barrel sauna design and everyday usability.

Bench length: 269 cm

Halo Extra Comfy 300

4 person sauna with changing room
Sauna length: 301 cm
Bench length: 163 cm

Halo Extra Comfy

Barrel sauna with changing room

Halo Extra Comfy is the only model in the Halo collection that features a dedicated changing room, offering added comfort and privacy.

The separate entrance area provides space to change, store towels and relax before or after your sauna session, while also helping maintain the heat inside the sauna room. This thoughtful layout adds both convenience and privacy, making it ideal for longer and more relaxed sauna rituals.

Luma

Elegant Retreat

Discover the charismatic appeal of Luma’s space-efficient design, which blends seamlessly into any outdoor environment to provide a serene, enriching sauna experience with an added touch of functionality.

Luma is crafted for utmost comfort and longevity, with a circular shape that enhances heat retention and energy efficiency. This barrel sauna offers a cosy relaxation escape, featuring a charming porch area with benches that’s perfect for cooling down and unwinding after a steam. Elevate your outdoor space with Luma, available in the compact Cosy and roomier Comfy models, each designed to enrich your relaxation experience with practical elegance.

See extras & accessories on pages 40-61

Key features

Various size options

Customize your sauna experience with Luma's selection of length and diameter options. Whatever the size of your outdoor area, there's a Luma that fits perfectly to accommodate everyone from solitary bathers to social butterflies.

Convenient terrace

This thoughtfully designed outdoor space provides the perfect extension to your sauna experience, allowing you to relax, soak up the sun or cool off in refreshing style after a rejuvenating sauna session.

Customizable

Luma is a personal retreat, tailored to your preferences. Choose from a selection of upgrades including panoramic windows, a range of exterior colors, diverse lighting solutions and multiple heating options to create your ideal sauna experience.

Appealing circular design

Embrace the serenity of Luma's circular form, which harmonizes with the natural environment. As well as enhancing your outdoor aesthetics, this design also provides more uniform heat distribution within the sauna.

Durability and longevity

Built with Thermory's premium thermo-spruce, Luma is crafted to endure. Thermal modification significantly enhances the wood's resistance to decay and weathering, ensuring that your sauna stands the test of time.

Easy installation

Engineered for convenience, Luma is designed to be assembled with ease. The intuitive design and clear instructions mean that setting

Luma Cosy

Compact comfort for everyday sauna moments

Luma Cosy is designed for those who appreciate a compact sauna that delivers warmth and comfort without unnecessary space. Its slightly smaller diameter creates a more intimate sauna environment that heats up quickly while maintaining the efficient heat circulation typical of the barrel design.

With the same length options as the Comfy models, Luma Cosy offers a balanced sauna experience in a more compact form. It is an ideal choice for smaller outdoor areas while still providing comfortable seating and the inviting atmosphere of natural thermally modified wood.

For those seeking a practical and elegant outdoor sauna with efficient heating and a cosy interior feel.

Dimensions

Sauna length: 301 cm
Bench length: 229 cm

Luma Comfy

More space to relax, share and enjoy the sauna

Luma Comfy builds on the classic barrel sauna concept with a larger diameter that provides increased interior space and additional headroom. This makes the sauna particularly comfortable for taller users and allows for a more open and relaxed seating position.

While maintaining the same length options as the Cosy models, the expanded interior volume creates a more spacious atmosphere that is ideal for longer sauna sessions or shared sauna moments.

With its generous proportions, warm thermally modified wood interior and balanced heat circulation, Luma Comfy offers a more open and comfortable interpretation of the traditional barrel sauna.

Sola

Modern Serenity

Discover the charm of the Sola barrel sauna, where modern design meets serene comfort. Crafted from high-quality thermally modified spruce, this outdoor sauna stands out with its robust construction and elegant square shape.

Available in three sizes, Sola caters to individual preferences; the compact solo version is perfect for those seeking a private escape, while the largest model comfortably accommodates up to eight people, making it ideal for families or small gatherings.

Sola is more than just a sauna – it’s a sanctuary where you can unwind and rejuvenate, right in the privacy of your back yard.

Sola technical features

Basic set includes

STRUCTURE.....	40 mm thermally modified pine barrel construction, stainless steel tension bands, foundation beams, ventilation valves and decorative end plates
FRONT & BACK WALLS.....	Prefabricated solid wood and glass panels
INTERIOR.....	Thermo-aspen benches, backrests and floor grids

EXTRERIOR	Bench skirt
FINISH	Thermory tinted oil treatment Black brushed exterior finish

Auroom accessories

See extras & accessories on pages 40-61

Key features

Various size options

Sola comes in three sizes. The solo version is perfect for individuals seeking a personal retreat, while the larger models accommodates up to six or eight people, ideal for sharing with family or friends.

Stylish Design

Sola's sleek, square shape with rounded edges showcases a modern aesthetic that complements any outdoor setting. Not only does its design look great, it also promotes consistent heat distribution within the sauna.

Streamlined for Smaller Spaces

Sola's design is an ideal option for those with limited space. If you're looking to add a touch of luxury to a small garden, balcony or rooftop, this compact sauna solution means you won't have to compromise on quality or experience.

Customisable

Make your sauna uniquely yours with Sola's extensive customization options. Choose from features like panoramic windows for breathtaking views, diverse heating solutions and a variety of exterior finishes to match your personal style and functional needs.

Sauna for 6-8 people
Bench length: 220 cm & 198 cm

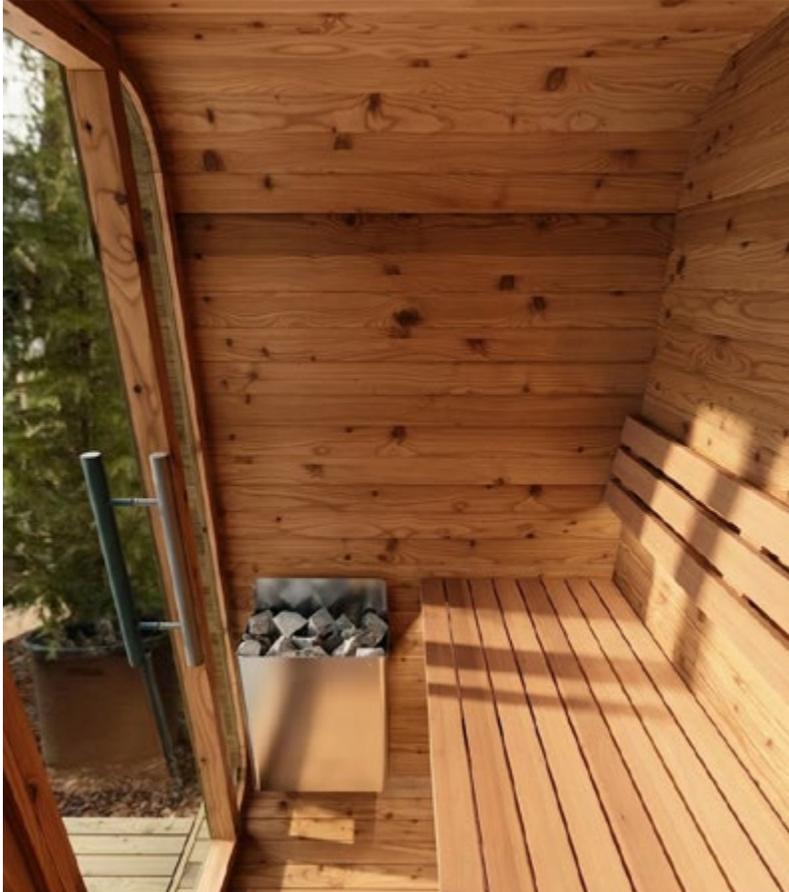

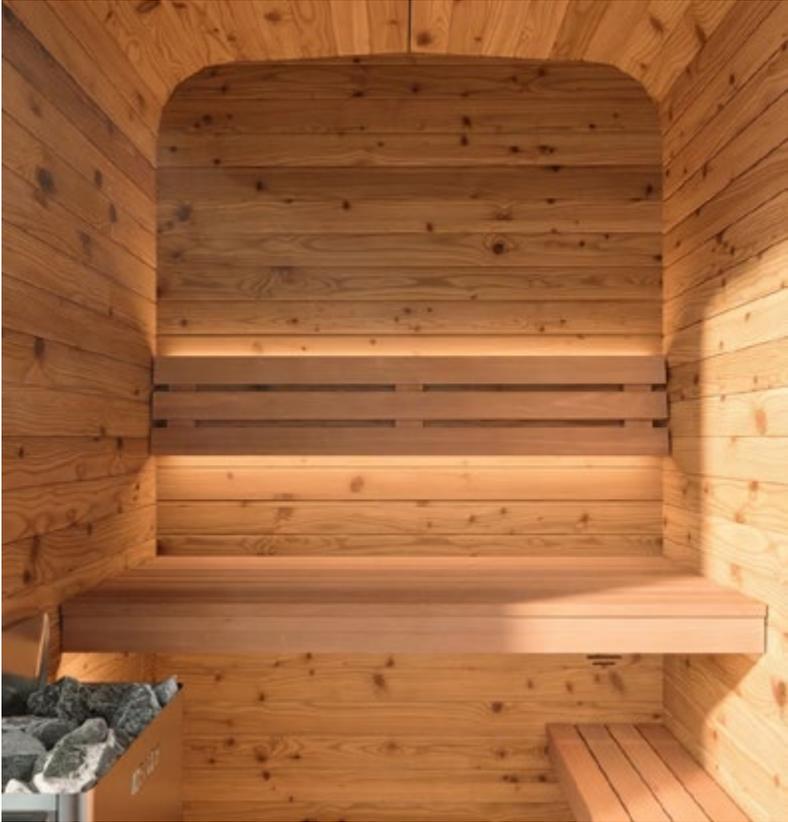

Sola 140

The most compact square barrel sauna

Sola 140 is the smallest model in the Sola collection, designed for balconies, terraces and smaller outdoor spaces. Its compact square footprint allows it to fit easily into areas where traditional saunas may not.

Despite its minimal size, the interior provides comfortable seating and efficient heat circulation, creating a warm and relaxing sauna experience. Crafted from thermally modified wood, Sola 140 combines durability with a clean architectural design suited for modern outdoor environments.

Dimensions

Nora

Embrace the Extraordinary

Elevate your outdoor living with Nora - a masterpiece that combines the traditional warmth of the sauna with modern luxury. Built from premium thermally modified spruce, Nora's robust structure defies the elements, ensuring durability and rot resistance.

Nora's standout feature is its welcoming porch area with built-in benches - perfect for relaxing before or after your sauna session. This additional space adds a functional touch of elegance, a lifestyle enhancement that makes Nora so much more than just a sauna.

Kaia S

Kaia S is the newest addition to the already popular Kaia series – designed for simple, private backyard wellness.

Streamlined and space-efficient, it offers a clean architectural form without a terrace, making it ideal for smaller outdoor areas. The thoughtfully designed interior features a two-level bench layout, comfortably accommodating up to three people while ensuring efficient air circulation and a balanced sauna experience.

Crafted from thermally modified pine, Kaia S combines durability with modern design – a compact sauna created for everyday relaxation.

Dimensions

Customise your wellbeing

Your sauna is personal. Crafted with intention and designed to belong in its surroundings, each Auroom barrel sauna becomes the foundation for a retreat shaped by you.

1. Choose your model

Select the size and layout that fits your space.

2. Define the exterior

Choose your preferred finish, roofing, and glazing.

3. Refine the interior

Add lighting, design upgrades, heating and selected accessories.

Exterior

Halo sauna; Brushed black exterior; PVC roof cover

Natural Finish

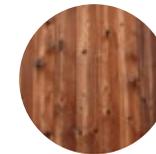

Protect and enhance your sauna's exterior with Thermory tinted oil - specially developed for thermally modified wood.

The oil penetrates deep into the surface, enriching the wood's natural tone while improving resistance to UV exposure, moisture, and changing weather conditions.

Available in two shades

Light oil

Dark oil

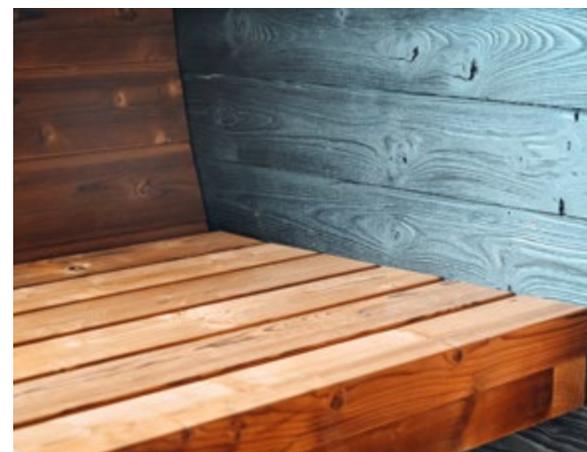

Sola sauna; Thermory dark oil; Rectangle shingles

Black Brushed Finish

Create a bold, architectural presence with our Black Brushed Finish - a surface treatment that enhances the natural texture of wood on both- interior and exterior- while adding depth and sophistication.

The black exterior finish blends effortlessly with modern architecture and natural landscapes alike - refined, expressive, and built to last.

Bitumen Shingle Roofing

Add lasting protection and architectural definition to your sauna with a bitumen shingle roof.

Engineered to withstand rain, sun and seasonal temperature changes, this roofing solution forms a reliable weather barrier that protects the structure year after year. It helps preserve the sauna's performance and appearance in more demanding climates while maintaining a clean, finished look.

Available in black, in two patterns

Hexagon

Rectangle

Luma sauna; Thermory light oil; Hexagon shingles

PVC Roof Cover

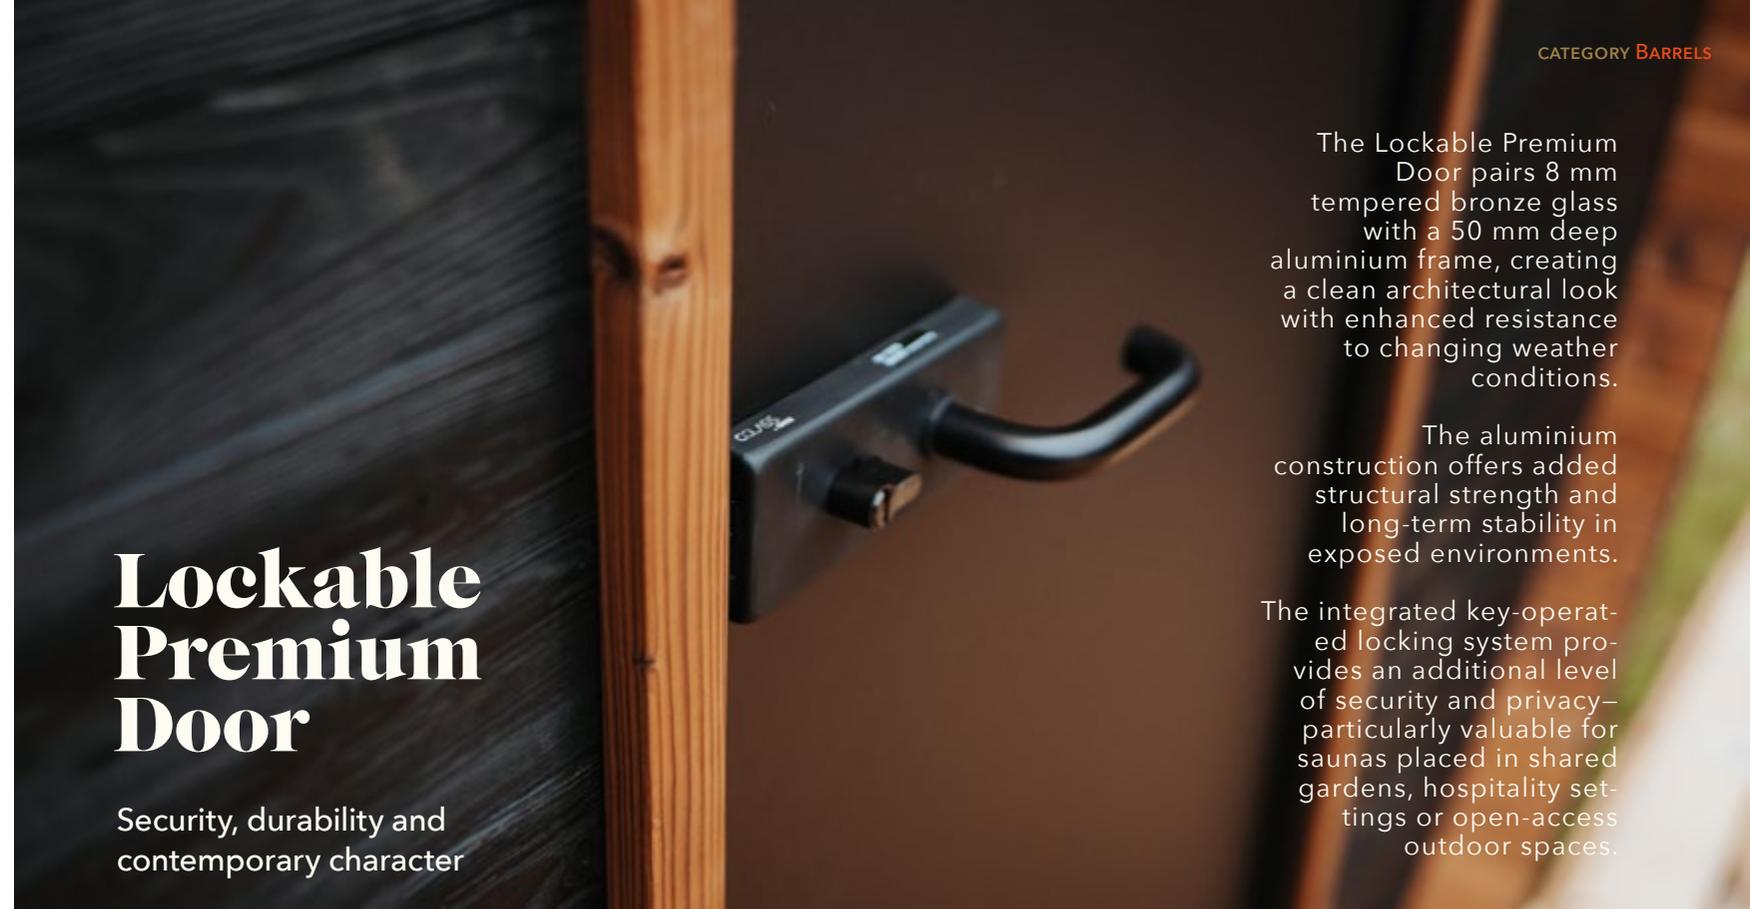

A practical and efficient roofing solution designed to protect your sauna from UV exposure and moisture.

Well suited for warmer or milder climates, the lightweight PVC cover ensures reliable surface protection while allowing for quicker installation. Its smooth, minimal appearance complements contemporary outdoor settings and integrates seamlessly into garden environments.

Available in black.

Nora sauna; Black brushed finish; PVC roof cover

Lockable Premium Door

Security, durability and contemporary character

The Lockable Premium Door pairs 8 mm tempered bronze glass with a 50 mm deep aluminium frame, creating a clean architectural look with enhanced resistance to changing weather conditions.

The aluminium construction offers added structural strength and long-term stability in exposed environments.

The integrated key-operated locking system provides an additional level of security and privacy—particularly valuable for saunas placed in shared gardens, hospitality settings or open-access outdoor spaces.

Available for Halo and Luma models in two finishes

Bronze

Matte bronze

Halo sauna; Black brushed finish; Matte Bronze Premium lockable door

Halo sauna; Full Panoramic window; High benches

Panoramic Views

Open your sauna to the landscape and transform how you experience light and space.

Panoramic glass walls invite natural light inside, enhancing openness and making even compact models feel more spacious.

Whether overlooking a forest, lake or garden, panoramic glazing connects your sauna experience with its surroundings.

Materials

Available for Nora 210,250 and Sola 210, 250 models

Nora sauna; Thermory light oil finish; Hexagon shingles; Mirrored

Mirrored Glass

Toned grey glass comes as standard, offering a refined balance between openness and privacy.

For a more contemporary and expressive exterior, choose mirrored glass. It enhances discretion from the outside while maintaining light and visibility from within, adding a bold architectural character to your sauna exterior.

Interior

Nora sauna; Panoramic window; Bench skirt

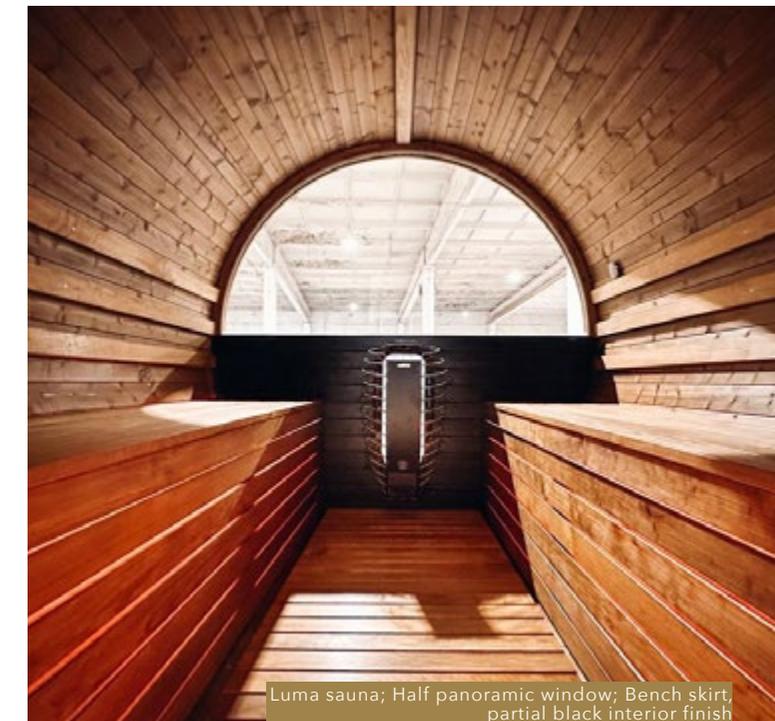

Bench skirt

Create a cleaner, more refined interior appearance.

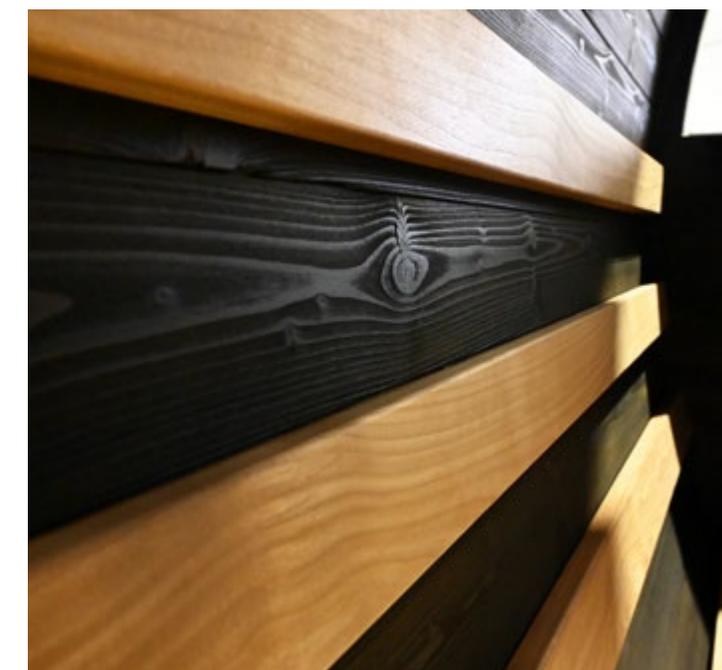

The bench skirt conceals structural elements beneath the seating, delivering a seamless look while enhancing the overall sense of craftsmanship. A simple detail that elevates the interior finish.

Available for all barrel sauna models with standard sauna bench, except Sola 140.

Material
Thermo aspen

Luma sauna; Half panoramic window; Bench skirt, partial black interior finish

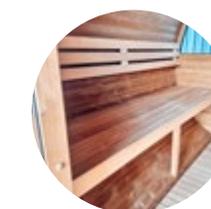

Interior Finish

Protect and personalise your sauna interior.

Interior treatment protects the wood from moisture and daily wear while preserving the natural character of thermally modified timber.

At the same time, it defines the atmosphere of your sauna - from a bright, natural look to a darker, more intimate expression.

Natural/clear walls and benches

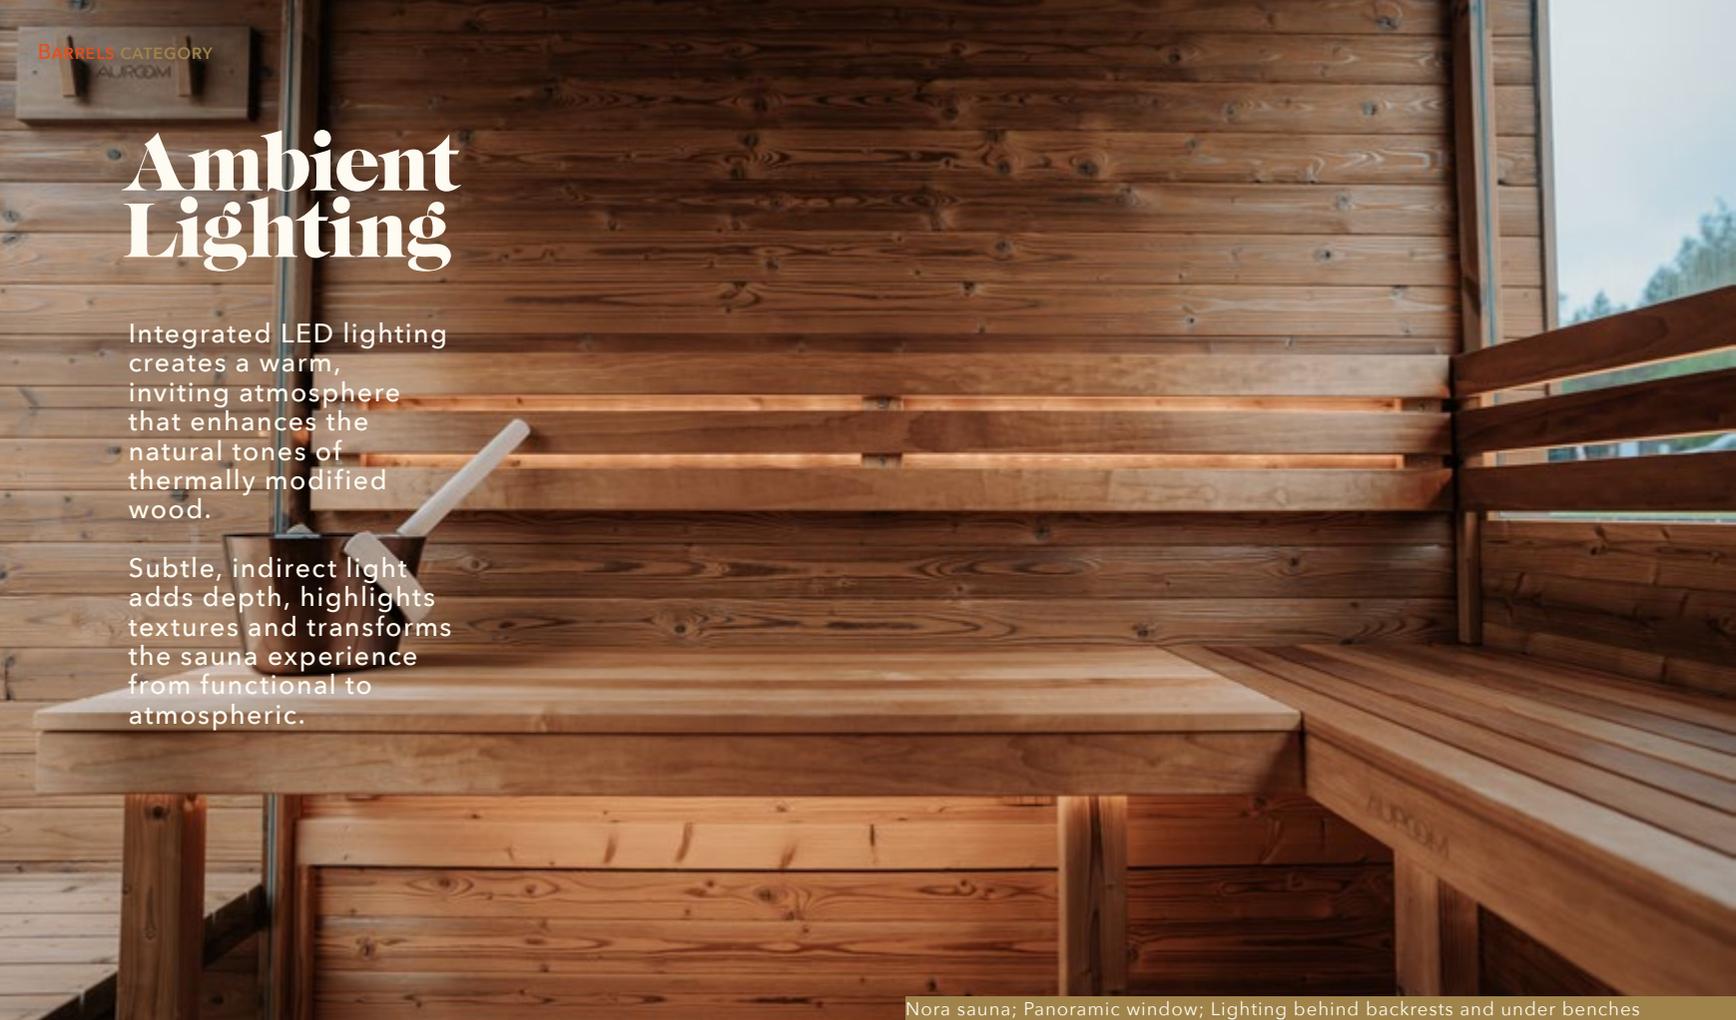

Black walls
Natural benches

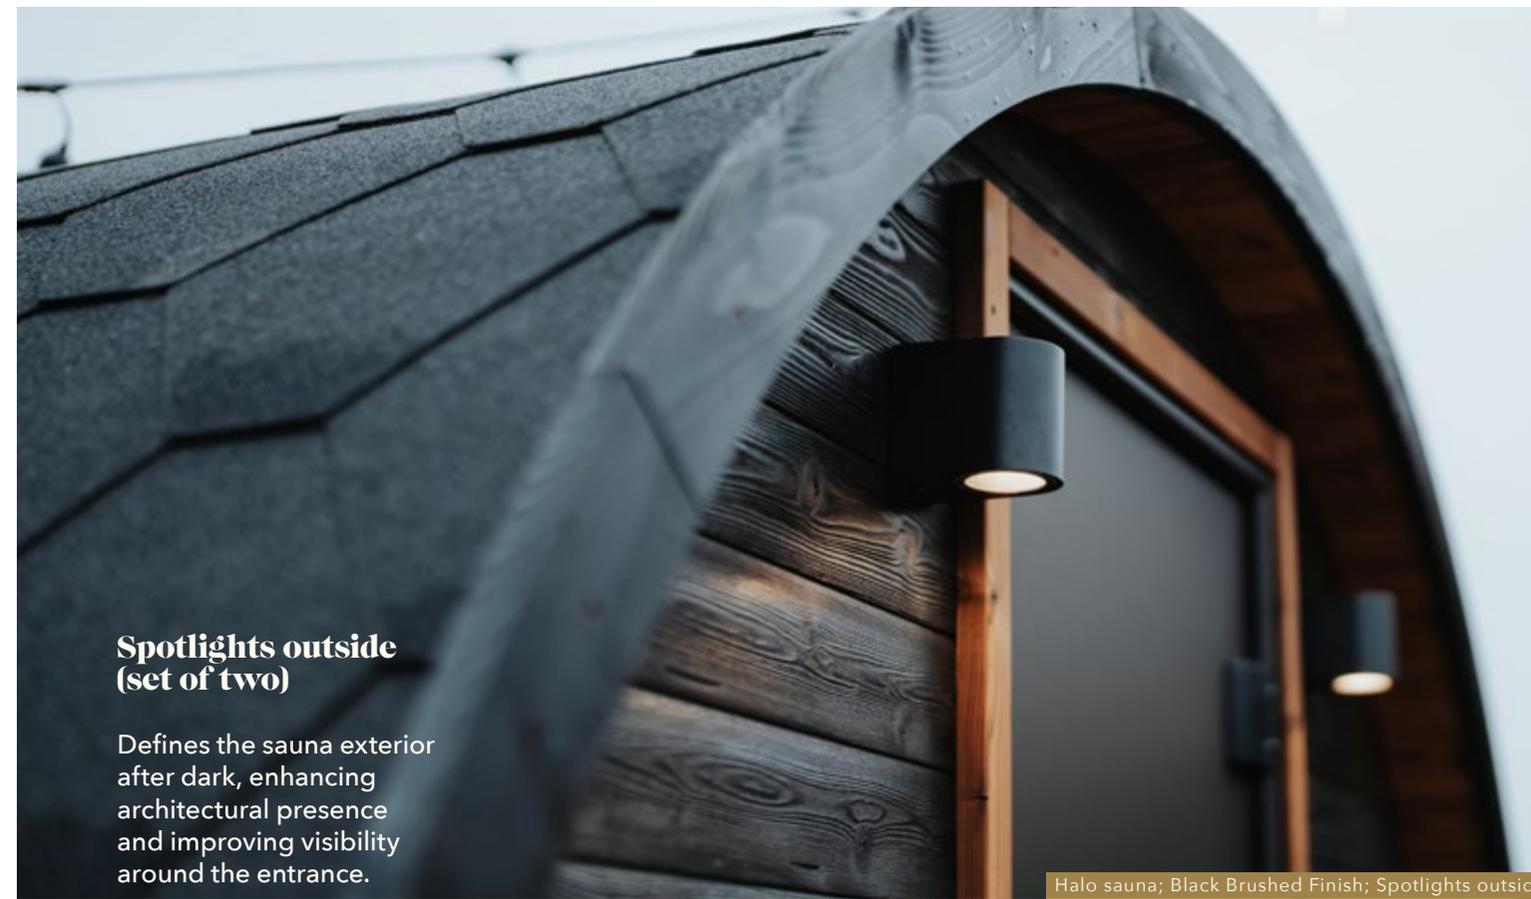

Ambient Lighting

Integrated LED lighting creates a warm, inviting atmosphere that enhances the natural tones of thermally modified wood.

Subtle, indirect light adds depth, highlights textures and transforms the sauna experience from functional to atmospheric.

Nora sauna; Panoramic window; Lighting behind backrests and under benches

Spotlights outside (set of two)

Defines the sauna exterior after dark, enhancing architectural presence and improving visibility around the entrance.

Halo sauna; Black Brushed Finish; Spotlights outside

Wall lights (set of two)

Adds soft vertical illumination, enhancing depth and evening ambience.

LED under bench

Creates a floating effect while improving visibility and comfort.

LED behind backrest

Delivers concealed, indirect glow for a refined and calming atmosphere.

Kinetic Wireless switch

A clean, cable-free lighting control solution.

The kinetic switch operates without batteries or hard wiring, generating its own energy when pressed. It can be positioned wherever it feels most intuitive, offering flexibility while maintaining a seamless interior and exterior aesthetic.

Available in black.

Juniper Panels

Introduce natural character and aroma into your sauna with handcrafted juniper panels.

Known for its distinctive scent and calming properties, juniper enhances the sensory experience while adding warmth and texture to the interior. Each panel is composed of natural wood slices, creating a unique organic pattern that transforms the wall into a design feature.

A statement element that combines visual impact with a subtle aromatic atmosphere.

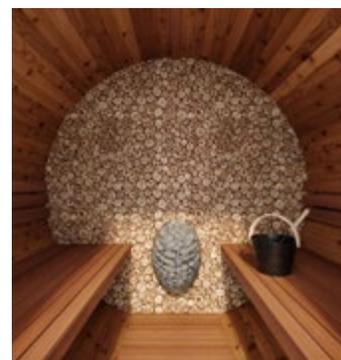

An aromatic design feature inspired by nature.

Panel behind the heater
Available for Nora and Sola 210,250 models

Available for all Halo and Luma models with standard bench

Full Panel

Available for all Halo and Luma models with standard bench

Top panel

Available for all Nora and Sola models

Halo sauna; Full Panoramic window; Elevated sauna benches; Lighting behind backrests and under benches

Elevated Sauna Benches

Choose an elevated bench configuration for a more intense, traditional sauna experience.

The additional step and higher seating position place you closer to the heat, allowing for deeper, more enveloping warmth.

Suitable for new sauna configurations and can be installed in existing models with standard benches.

Material
Thermo aspen

Available for Halo Comfy and Luma Comfy models

Heating

The heart of your sauna experience.

The heater defines heat intensity, steam quality and the overall character of your session - from precise and effortless to deeply traditional.

Selecting the right heater depends on sauna volume, layout and your preferred heat intensity. Your Auroom authorized dealer will guide you in choosing the optimal model and configuration for your specific sauna.

Electric Heaters

Precise. Efficient. Versatile.

Modern electric heaters heat quickly and maintain stable temperatures with accuracy. When water is poured over the stones, they produce rich, authentic steam – just like traditional sauna heaters.

Available with advanced control options, including optional WiFi controllers for remote operation and scheduling.

Ideal for everyday convenience and consistent performance.

Wood Burning Heaters

Traditional. Powerful. Atmospheric.

Wood-burning heaters deliver deep, natural heat and a classic sauna ritual. The live fire, soft crackling sound and scent of burning wood create a fully immersive experience.

Designed for those who value time-honored sauna traditions.

Nora sauna; Duetto Infrared panels

Duetto Infrared Panels

Dual wellness experience in one sauna.

Duetto infrared panels can be integrated alongside your heater, allowing you to combine traditional steam sessions with gentle infrared warmth.

Infrared heat penetrates deeper into muscle tissue at lower air temperatures – ideal for relaxation, recovery and flexible daily use.

Perfect for households seeking both intensity and comfort within a single space.

Duetto set consists of:

- Infrared heating element with electrical system
- Wireless kinetic switch
- Wooden protective cover grille
- Optional ergonomic backrest with decorative metal insert

Thermowood Heater Cladding

A handcrafted design feature with integrated safety.

The thermowood cladding enhances protection around the heater while complementing the natural interior aesthetic.

It blends seamlessly with the Auroom barrel sauna interior, creating a cohesive and refined look.

Available with
Auroom x HUUM
Core heater

Complete your sauna ritual with thoughtfully designed essentials – from traditional pail and ladle to aromatic oils and natural textile pieces.

Each accessory enhances comfort, atmosphere and authenticity, helping you create a more personal sauna experience.
